

Certificate II in Metal Roofing and Cladding

tradePATH - SACE Stage 1/2

About the Course

Successful completion of this course will provide students with the practical skills and knowledge that will support further studies and future employment opportunities within the plumbing sector of the construction industry. Students who advance to Certificate III in Construction Plumbing Services (CPC08) will select units from the specific "Field of Work" and specialise within this area. This qualification provides an introduction to the construction industry, its culture, essential occupational health and safety requirements, the industrial and work organisation structure, communication skills, work planning, and basic use of tools and materials. The qualification is built around plumbing projects unit that integrate the skills and embeds the facets of employability skills in context.

There are no specific job outcomes to this qualification, but the skills achieved will assist in successfully undertaking a course, including units from Certificate III training packages, or job outcome qualification, or will facilitate entry into an Australian Apprenticeship. The unit CPCCOHS1001A "Work safely in the construction industry" is designed to meet OHS regulatory authority requirements for OHS induction and must be achieved before access to any building and construction work site.

Prerequisites

Students must have good literacy and numeracy skills, and will be required to undertake LLN Assessment.

Special Requirements

Students must adhere to all WHS requirements as directed by trainer. The approved RTTC trainee uniform and PPE will be required during all training and SWL.

Students will be provided with the following through the RTTC at no additional cost:

- High visibility Jonsson work shirt
- Safety glasses
- High visibility work jumper.

Additional Personal Protective Equipment (PPE) to be purchased by student prior to commencement:

- Black steel cap boots
